1/About Us

Engaging in the production and marketing of rearview mirror lenses convex and aspheric mirrors, exterior rearview mirrors Interior mirrors.

About Us

The automotive mirror plant is a leading manufacturer of mirrors for the automotive industry. As an automotive safety solution provider, located in Tianjin, one of the four directly governed city regions of China, it is also a sea port city with many direct shipping lines to most of the world ports, which guarantees the shortest shipment time and prompt delivery.

Auto mirror plant has an annual production capacity of about 6.8 million pieces

Facilities

ISO9001:2015 and IATF 16949:2016 certified

The plant covers a land area of more than 13,320 square meters, and a built-up area more than 9,000 square meters.

With about 180 seasoned workers including 30 professional mirror processing staff.

Auto mirror plant has an annual production capacity of about 6.8 million pieces

Commitment to guarantee

Ensure 100% quality before the date of delivery

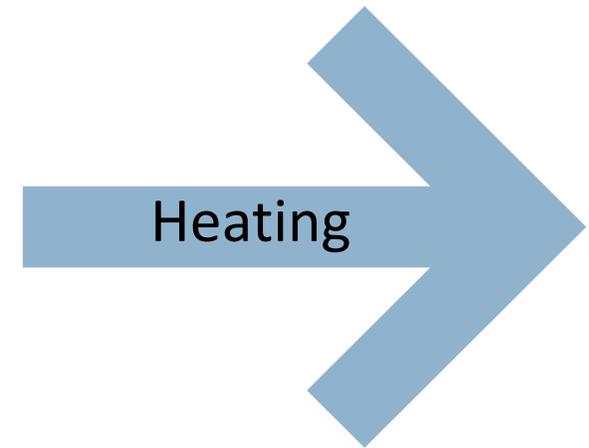

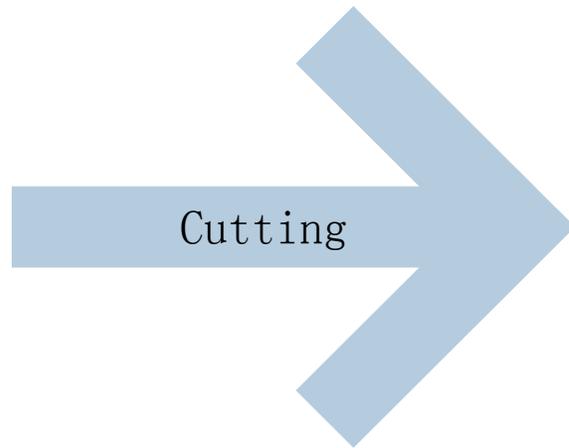

After-sales service to ensure safety stock of factory and timely delivery

If products have quality problem, it will be responded within 24 hours and will put forward feasible solutions
