Special Note

The racks are according to the characters of high precision:

- With the whole length of 2000mm, unstraight degree can not exceed within 0.20mm, no matter the measurement is taken at any place of the rack.
- Unverticality of each vertical plane of the rack is less than 0.20mm.
- Smooth finished of each side is 0.8 and over.
- Error added up to circumferential pitch of any teeth is less than 0.20mm.

a=20°

special notice

Material C 45 of specially treated bright steel Ø_{h11} with a tensile strength of approx. 650 N/mm². Both ends of the racks are designed so that several racks can be linked together to obtain any desired length.
